

SIHL Dye Sublimation

ADVANTAGES OF OUR SIHL SUBLICOLOR PRODUCT RANGE

Our Sublicolor line technology makes the sublimation process particularly efficient: a pigmented, porous, quick dry coating based on a special low porosity material. You achieve end results with exceptional brilliance on every background surface, in every application.

SubliColor

3792 Sublicolor Universal

90gsm

Roll Length: 328' | Width: 44", 51.5", 63" | 3" Core

Roll Length: 492' | Width: 44", 51.5", 63" | 3" Core

- Universal sublimation paper for water-based dye sub inks
- Best in class transfer rate, low ink consumption
- Sharp contour definition with soft gradients

3793 Sublicolor Sports

90gsm

Roll Length: 328' | Width: 24", 36", 44", 51.5", 63" | 3" Core

Roll Length: 492' | Width: 24", 36", 44", 51.5", 63" | 3" Core

- Adheres well to sports fabric
- Best in class transfer rate, low ink consumption
- Good dry time, no image ghosting

3796 Sublicolor Impact

112gsm

Roll Length: 250' | Width: 24", 44", 63" | 3" Core

- Heavy coated sublimation paper, best in class transfer rate
- Excellent color brilliance on polyester-coated hard and soft substrates
- Mugs, Chromalux metal plates, table tops
