

SIHL INTRODUCES New Pipeline™ and Malibu™ Latex Photo Papers

PRODUCT ANNOUNCEMENT

Dear Sihl Customer,

Sihl Digital Imaging has developed a new series of smooth, satin/gloss/matte photo papers that delivers maximum image performance, black density and color vibrancy with Latex inkjet printers. Unlike traditional photo papers, **Pipeline™ S**, **Pipeline™ G** and **Malibu™** Latex photo papers feature a proprietary coating technology that is not impacted by the cure or drying temperatures of latex printers. The result is a perfectly smooth, dry print that establishes a new standard of color, quality and detail for the Latex printer series.

PRINT

Sihl Pipeline™ and Malibu™ combine maximum ink loading and extremely fast drytimes to produce excellent print quality and color gamut. **Sihl Pipeline™ and Malibu™** are compatible with Latex inkjet printers.

* Visit www.sihlusa.com for print settings on the leading brands of inkjet printers.

FINISH

The unique **Pipeline™ and Malibu™** coating is water and scratch-resistant. For added durability or a change of surface finish, **Pipeline™ and Malibu™** can be laminated with either pressure sensitive or heat activated films.

BUY

Sihl Pipeline™ S is in stock and available for immediate shipment.

Roll Sizes: 36", 54", 60" by 150' length, 3" core.

Sihl Pipeline™ G is in stock and available for immediate shipment.

Roll Sizes: 36", 54", 60" by 150' length, 3" core.

Sihl Malibu™ is in stock and available for immediate shipment.

Roll Sizes: 36", 54", 60" by 150' length, 3" core.
