

SIHL INTRODUCES NEW 3209 QuickSTICK AQ Adhesive Backed Fabric

PRODUCT ANNOUNCEMENT

Dear friend of Sihl,

When we launched QuickSTICK 3208 for solvent, latex, and UV platforms the overwhelming response from customers was "we love your product, but do you have one for aqueous ink as well?" Now we do....3209 QuickSTICK AQ.

Our all new 3209 QuickSTICK AQ is a printable, repositionable, woven PET that is also recyclable. We view it as the all-around best solution you could have for indoor graphics.

If you were to compare this to the brand name in repositionable fabric graphics, you would find that the Sihl QuickSTICK AQ has exceptional dot gain for super-enhanced graphic imagery, delivering a brilliant gamut range of color and not having the toxic smell associated with competitive vinyl based media.

Use 3209 QuickSTICK AQ for even more high impact value conscious imaging.

All the best,

Sihl USA

Roll Sizes : 36," 50," by 100' length, 2" core.
