

3358 CAD Perfect II Photo Paper Satin 7 mil

PRODUCT DESCRIPTION

3358 CAD Perfect II is a bright white, satin finish, instant dry photopaper designed specifically for printers using dye color with pigment black ink. The proprietary coating allows for instant drytimes and stable color, even with dye ink. Unlike microporous photopapers, CAD Perfect II can be printed with dye ink and left un laminated without fear of color shift. This makes it a truly economical photopaper.

ADVANTAGES

- High Quality Resin Coated Base
- Excellent Color Gamut
- Excellent Lamination Properties
- Minimum Ozone Fade Without Lamination (When using Dye Inks)

APPLICATIONS

- Architectural Drawings, Color Campaign Maps, Survey Maps
- Quality Photo Reproductions for CAD Printers
