

PICOFILM P-50 SILVER GLOSS IHG1

glossy 7854, 77 µm

Silver facestock film for the production of product labels in the fields of beverages, home & personal care.

P-50 silver gloss IHG1 is a silver 77 µm PET facestock film, with a gloss coating on the front side for the printing of variable information using water-based inkjet printers and with the rear side untreated.

Self-adhesive coaters benefit from process characteristics which are similar to standard PET films and from the versatility: This film is suitable for both dye and pigment inks. No change to the processes is necessary. End customers get a fast-drying, easy-to-process product with high colour brilliance, sharply contoured printouts and good water resistance.

Advantages

- Quick drying
- High colour brilliance
- Sharply contoured printouts
- Good water resistance

General tips

For quality reasons PICOFILM should be stored originally packed. Storage and converting conditions of 20 +/- 5° C and 50 +/-10% rel. humidity are recommended. Inkjet coatings are durable for a period of two years when stored appropriately in original packaging.

Physical data

Name	Value	Tolerance	Norm
Thickness (film) [µm]	77	±6	ISO 4593
Weight [g/m²]	98	±3	ISO 536
Gloss (85°) MD, Dr. Lange	> 85		ISO 2813
Gloss (85°) CD, Dr. Lange	> 85		ISO 2813

Printing instructions

We always recommend comprehensive testing of materials prior to regular conversion.
