

# SIHL Dye Sublimation

## SIHL, A NEW INNOVATION IN SUBLIMATION

Our SubliColor line has created a revolution in the Dye-Sub world. We developed a family of papers that work together as a system. SIHL built a solution allowing quality, production, and versatility on the widest range of applications. With SIHL, you will achieve clean brilliant color, outstanding saturation, amazing resolution, fast drying times, unheard of transfer times, and production that is not hindered by the weather.

### SubliColor

#### 6865 SubliColor SuperSport

85gsm

Roll Length: 100'	Width: 14", 24"	2" Core
Roll Length: 328'	Width: 24", 36", 44", 64"	3" Core
Roll Length: 492'	Width: 24", 36", 44", 64"	3" Core

- Adheres to fabric without residue
- Prevents color bleed / Short transfer times / Bright colors / Quick dry
- Excellent media for Hard and Soft applications
- Perfect for Epson F570 and other table top printers

#### 3277 SubliColor Premium 85

85gsm

Roll Length: 328'	Width: 44", 64"	3" Core
Roll Length: 492'	Width: 44", 64"	3" Core

- Standard aqueous sublimation paper for polyester material, banners, etc.
- Great price: performance ratio for hard surfaces
- Quick dry, optimal transfer rate and density

#### 3788 SubliColor EnVogue II 48

48gsm

Roll Length: 1000'	Width: 64"	3" Core
--------------------	------------	---------

- Great for the fashion industry
- Lightly coated paper with excellent dry time and high color transfer rate
- Flat for optimal runnability in high speed production
- Full color gamut

#### 3797 SubliColor Impact II

120gsm

Roll Length: 250'	Width: 44"	3" Core
Cut Sheets:	8.5x11, 11x17, 13x19	

- Heavy coated sublimation paper, best in class transfer rate
- Excellent color brilliance on coated hard and soft substrates
- Mugs, Chromalux metal plates, table tops, glass and other media
- Exceptional resolution
