

SIHL Creative Fine Art Papers

Special moments deserve to be captured in a special way. For this, print media needs to possess a certain set of characteristics: excellent color reproduction, high black density, the ability to last. Sihl creative art papers provide all of this and more. Fogra certification on Sihl **3315** and Sihl **3317** provide further proof and these papers can be counted on to hold that moment for years to come.

Photo & Art

3315 Creative Smooth Paper 19 mil Matte

- Excellent Color Reproduction & Soft Transitions
