

INK COMPATIBILITY

The 3364 Glow SL Backlit Film is a premium satin-finish material designed for use with eco-solvent and Latex inkjet wide-format printers. Featuring a robust polyester base, this film offers exceptional dimensional stability, rigidity, and tear resistance, ensuring easy installation and long-lasting durability.

Built to withstand significant temperature fluctuations, the 3364 Glow SL Backlit Film is ideal for both indoor and outdoor lightbox displays. Its satin finish delivers vibrant, high-quality images, whether illuminated or not. Furthermore, the quick-dry coating allows for higher ink loads, producing bold and striking visuals that capture attention.
