INK COMPATIBILITY

3616 GreenGrafX is a revolutionary product as one of the world's first recyclable photo paper, proudly made in Germany and FSC® certified. 3616 GreenGrafX photo paper features an exclusive barrier and microporous coating, replacing the traditional PE film found in conventional photo papers, offering an environmentally friendly and recyclable media option.

This unique barrier ensures exceptional flatness, even under heavy ink coverage, while also minimizing sensitivity to environmental changes. Tailored for water-based ink systems, the microporous coating guarantees outstanding color accuracy, a wide range of colors, and rapid drying, making it perfect for indoor poster and photo printing.
