

SIHL INTRODUCES NEW 3137 BRAVO II CANVAS

PRODUCT ANNOUNCEMENT

Dear Sihl customer,

Meet the new addition to the Sihl artist canvas product line.

3137 Bravo II Canvas has been developed to seamlessly unite two primary market segments.

First the fine art market, which can utilize Bravo II as a traditional and archival museum grade enhanced canvas. Traditional methods of mounting and framing artwork are ideally suited to Bravo II, plus the advancements made in the design and production ensure a more reliably uniform print surface.

Second, when savvy advertising and graphic professionals want a classic artist canvas to print on, they choose Bravo II which has been designed for the latest graphic print technology platforms. Bravo II is compatible with Solvent, Latex, and UV printers.

For the best choice from a master's studio to the featured image in a high end retail outlet to a museum or private art collection you'll say Bravo II.

All the best,

Sihl Digital Imaging Team

Roll Sizes : 36," 54," 60," by 75' length, 3" core.
