Environmental Social Governance

The protection of our environment and the health of our employees are important components of our success. “Environmental Social Governance” (ESG) stands for companies’ social responsibility in terms of doing business sustainably. This includes various criteria such as the environment, working conditions and human rights, fair business practices and sustainable procurement.

Here at Sihl Inc we aim to leave a CO2 footprint as small as possible through our energy efficiency measures, recycling initiatives, and reduced emissions.

For more information please visit Sihlinc.com where you can find spec sheets, instruction guides, and even certifications for all of our great products. These will be available under our support and downloads tab and all can be easily downloaded.
